

Feature

- * High-quality professional condenser sound head and suppression circuit, super-cardioid directivity and high sensitivity.
- * With switching noise cancellation circuit, the microphone can achieve ultra-quiet effect when it is turned on and off.
- * 3Elegant and unique appearance design, it is a high-level professional microphone for various high-level meetings, public broadcasting, speeches and gatherings.

Specification

Model	TS-548MD
Transduction method	Capacitive
Frequency response	40Hz-18kHz
Directivity	super-cardioid directivity
Output impedance	75Ω
Sensitivity	-45dB
Maximum input volume	135dB Sound pressure
Dynamic Range	109 dB, 1KHz
Signal Noise Ratio	70 dB
Supply voltage	Phantom +48V power supply
Microphone length	200mm
Single microphone weight	0.6kg
characteristic	Iron base, anti-mobile phone, electromagnetic, high frequency interference
